

# Yateley 10k Series

## Runner Code of Conduct:

As many of you know YRR is a non-profit making organisation. Any money made is given to local charities and organisations. This year more than ever we need to ensure that these charities and organisations are supported. Running and Racing is also a lifeline for many people who have been starved of social contact over the last year and we wanted the races to be available for everyone to enjoy. In order to ensure that the races can go ahead smoothly and safely please follow the following code of conduct:

***Stay in your cars until 10 minutes before your start time or socially distance when you get to the field.***

***Follow the one way system***

***Use hand sanitiser wherever possible.***

***To protect others please consider wearing a mask before you cross the start line and after you cross the finish line***

***To protect others please stay 2m apart from anyone else at all times (including when you are overtaking)***

***Be very careful of traffic at all times.***

***Please do not wear any headphones for this race***

***If you see an injured or ill runner please inform a marshal.***

***Please give all volunteers and marshals space and treat them with respect.***

***Please be respectful to the space needed by pedestrians***

**Please remember that at all times your safety and health comes first.**

We hope that you enjoy your run in the sun (hopefully!)

Kind regards,

Jenny Robinson (Race Director)
